Summary

Motivated and detail-oriented Computer Science undergraduate specializing in Software Engineering. Currently a second-year student with a strong foundation in programming principles, algorithmic thinking, and problem-solving. Passionate about developing efficient and scalable software solutions, with hands-on experience in languages such as Python, C, C++ and Java. Eager to contribute to real-world projects and enhance technical skills through internships, workshops, and continuous learning. A quick learner with strong teamwork and communication abilities, aiming to grow in the field of software development and innovation.

Career Objective

To obtain an internship or entry-level position in the field of software engineering where I can apply and develop my technical skills, contribute to real-world projects, and gain practical experience that supports my academic background and career growth.
